What does the word Conventions mean?

A meeting of people who share a common interest.

How can I use the convention of a radio/podcast?

What is a podcast?

A podcast is a way of talking about something you are interested in with others or telling others about it. I listened to a few Gaming podcasts where someone talked about the game and reviewed the game. Or chatted with others about the game.  
Sometimes people use a podcast to discuss a topic where they can all share their views.

What are the conventions (the characteristics that make it a radio script)?

1. Characters names must appear in capitals with a colon
2. Dialog begins on the same line as the character's name.
3. V.O. voice over
4. D distort indicates a character who is speaking in a mechanical device i.e telephone or radio
5. LOW indicated the actor should speak quietly
6. CLOSE the actor should be close to the microphone making it feel intimate
7. Characters are on the left
8. Direction is on the left
9. Dialog on the right

SCENE 1.INT OLIVERS BEDROOM

FX: TWO FRIENDS TALKING IN OLIVERS BEDROOM

CHRIS: Hi Oliver, thanks for inviting me round to play and review Just Cause 3.

OLIVER: Your welcome, have you played this game before?

CHRIS: Of course, that is the only reason I agreed to come over, to whop your butt and let our listeners know how good this game is.

OLIVER: Let's get stated by saying dream on.

FX: BOTH BOYS LAUGH

OLIVER: So the game we are reviewing today is one of your favourites Just Cause 3, Let's start by talking about the game.

CHRIS: Just Cause 3 is an adventure game developed by Avaklanche Studios and published by Aquare Enix. It was announced on November 11<sup>th</sup> back in 2014. It was released worldwide in 2015 for Microsoft windows, PS4 and the Xbox 1. It quickly became a very popular game.

OLIVER: What's the idea of the game?

CHRIS: The game is set in a War zone where you have to liberate towns and military bases. The main  
(CHRIS/CONT'D OVER)

CHRIS (CONT'D)            idea is to stop DiRavello from continuing his treachery across the 3 main island of the game and taking everyone captive.

OLIVER:                    I found the story of this game quite fun to follow. It is a shame that it is not a multiplayer game, but I love the fact you can play this online against your friends with the challenges set by the game, so you can truly see who the best player is.

CHRIS:                    Yes, that's true and that would be me

FX:                      CHRIS LAUGHS
